Reproduire une figure

The grid contains a house figure and seven numbered points for reproduction. The house figure is composed of several line segments: a horizontal base, a vertical left wall, a vertical right wall, a horizontal roofline, and a triangular roof with a vertical line from the peak to the roofline. A small square window is located on the left wall. The seven numbered points are:

- 1: A point at the bottom-left corner of the house's base.
- 2: A point at the bottom-left corner of a right-angled shape.
- 3: A point at the bottom of a vertical line segment.
- 4: A point at the left end of a horizontal line segment.
- 5: A point at the left end of a horizontal line segment.
- 6: A point at the top of a vertical line segment.
- 7: A point at the bottom of a vertical line segment.
