

1

Représente avec des points, puis calcule:

$$6 + 6 = \underline{\underline{12}}$$

$$6 + 7 = \underline{\underline{12}} + 1 = \underline{\underline{13}}$$

$$5 + 5 = \underline{\underline{10}}$$

$$5 + 6 = \underline{\underline{10}} + 1 = \underline{\underline{11}}$$

2

Calcule, dessine sur l'ardoise si besoin .

$$3 + 3 = \underline{\underline{6}}$$

$$4 + 4 = \underline{\underline{8}}$$

$$7 + 7 = \underline{\underline{14}}$$

$$3 + 4 = \underline{\underline{7}}$$

$$4 + 5 = \underline{\underline{9}}$$

$$7 + 8 = \underline{\underline{15}}$$

$$5 + 5 = \underline{\underline{10}}$$

$$6 + 6 = \underline{\underline{12}}$$

$$8 + 8 = \underline{\underline{16}}$$

$$6 + 5 = \underline{\underline{11}}$$

$$7 + 6 = \underline{\underline{13}}$$

$$9 + 8 = \underline{\underline{17}}$$
